

# BIOSHADE<sup>TM</sup>

## Floating Lagoon Cover System

### Material Features

- Economical Solution—proven technology at an affordable price
- Odor Control—100% water coverage reduces odors
- Algae/TSS Control—eliminates sunlight preventing algae growth
- Minimum Maintenance—factory installed; factory warranty
- High Quality—prefabricated in a climate-controlled facility

# BIOINSULATE<sup>TM</sup>

## Floating Insulated Lagoon Cover

### Material Features

- Heat Retention—for maximum bioreactor performance and reliability
- Increased Efficiency—provides an optimal biological environment
- Algae/TSS Control—eliminates sunlight preventing algae growth
- Proven Performance—hundreds of successful installations worldwide
- High Quality—prefabricated in a climate-controlled facility
- Easy Access—for lagoon maintenance and hardware servicing
