

FlexAIR[®] PRO Threaded Disc

Material Features

- 9" (230 mm) & 12" (300 mm) diameter fine bubble disc diffusers
- All diffusers with standard 3/4" male pipe thread connection fits any pipe
- Triple-check valve design prevents entry of liquid/solids into air feed piping
- High concentration of polymers for superior service
- Resistant to fouling and plugging for low maintenance
- Glass-filled Polypropylene (GFPP) body for maximum chemical, temperature and UV resistance
- Standard EPDM membrane, PTFE MATRIX™ or PTFE-coated, silicone, and others available
- Patented EZ-Seal™ for quick membrane installation
